

WEBSITE FUNCTIONAL SPECIFICATION

Orlovskie Bani

Premium sauna complex website with booking and certificate purchase journeys

Project type	Hospitality and booking website
Platform	1C-Bitrix
Languages	Website language versions
Integrations	iiko, Remarked
Delivery period	3 months
Project year	2024

1. Project overview

The website presents public sauna facilities, private sauna houses, spa treatments, menus, promotions and loyalty options. It provides booking journeys and access to gift certificate purchases.

Main goals

- Present public facilities and private sauna houses.
- Show capacity, area, rental duration, pricing and included amenities.
- Present procedures, products, menus and promotions.
- Support online booking and certificate purchase journeys.
- Maintain content through 1C-Bitrix.

2. Website structure

1. Home
2. Public Baths
3. Private Sauna Houses
4. Sauna House Detail
5. Treatments and SPA Programmes
6. Menu
7. Products
8. Promotions
9. News
10. Loyalty Programme
11. Contacts
12. Booking Journey
13. Certificate Purchase
14. Thank You Page
15. 404 Page
16. 1C-Bitrix Administration Area

The structure is based on the delivered website and the project case description. Hidden back-office processes are included only where they are confirmed by the stated technology stack.

3. Page requirements

Home

- Promotional slider.
- Public bath and private house presentation.
- Featured programmes, offers and booking actions.

Sauna Houses

- Catalogue of private houses.
- Detail pages with galleries, area, capacity, rental duration, price and amenities.
- Booking action linked to the selected house.

Public Baths and Treatments

- Men's and women's facilities.
- Procedures, spa programmes and related pricing.

Commercial Content

- Menu, products, promotions, loyalty programme and news.
- Gift certificate purchase action.

4. Shared interface elements

Header

- Logo.
- Main navigation.
- Contact or primary action where required.
- Language switcher where configured.

Footer

- Page links.
- Social media links where provided.
- Contact details.
- Copyright information.
- Developer credit where approved by the client.

5. Functional requirements

- iiko integration for the agreed booking flow.
- Remarkd integration for booking or certificate scenarios included in the approved build.
- Booking actions tied to the selected facility.
- Responsive galleries and promotional sliders.
- Website language switcher where configured.

6. Integrations

iiko, Remarkd

Integration failures must be handled without breaking the public interface or showing a false success state.

7. Forms and service pages

- Required form fields are validated before submission.
- The source page and selected item are included where available.
- The Thank You Page opens only after successful submission.
- The 404 Page is returned for non-existent URLs with the correct HTTP status.
- Personal data consent is included where required.

8. Content management

Authorised administrators should be able to manage the agreed website content without editing code.

- Manage houses, public facilities and procedures.
- Update prices, schedules, menus and promotions.
- Manage news, loyalty content and contact details.
- Review integration settings available to authorised administrators.

9. Technical requirements

- CMS / platform: 1C-Bitrix.
- PHP version compatible with the deployed CMS release.
- Apache 2.0 or later.
- MySQL version compatible with the deployed CMS release.
- HTTPS enabled in production.
- Responsive layout for desktop, tablet and mobile screens.
- Current versions of Chrome, Edge, Firefox and Safari.

10. Acceptance checklist

- ☐ Facility information and prices display correctly.
- ☐ Booking actions pass the selected service or house.
- ☐ iiko and Remarketed scenarios work as agreed.
- ☐ Certificate purchase links open correctly.
- ☐ Content can be managed through 1C-Bitrix.
- ☐ Non-existent URLs return the 404 Page and the correct HTTP status.

11. Scope basis

This portfolio-level specification was reconstructed from the delivered website and the existing case description.

- Live website: <https://orlovbani.kz/>
- Case description: `case.md`

Credentials, budgets, internal contacts, private documents and unverified server-side behaviour are intentionally excluded.
